

Anchor: Proactive Wellbeing for the Aging Population

"An ounce of prevention is worth a pound of cure"
by Benjamin Franklin

Life Expectancy Rising

Birth Rates Declining

Millions of older adults live independently while their adult children balance careers, families, and geographic distance, creating a chronic gap in wellbeing visibility.

Social Impact

Our solution directly advances UN SDG 3 (Good Health & Well-being) by redefining eldercare through proactive prevention and family connectivity.

Aligning with Global Goals

- Proactive prevention to ensure healthier aging
- Empowering families with real-time connectivity
- Reducing the burden on traditional healthcare systems

The daily psychological burden of caring from a distance.

The daily psychological burden of caring from a distance.

Families spend thousands of dollars every year simply to gain visibility and reassurance regarding aging parents.

Solution	Annual Cost
Medical Alert System	\$300–720
Occasional Caregiver Visits	\$2,600–4,000
Part-Time Caregiver	\$13,000–20,000
Assisted Living	\$25,000–90,000

Translating complex behavioral data into proactive wellbeing intelligence.

What is Anchor?

SOLUTION OVERVIEW

One-Glance Intelligence: hundreds of raw data points are synthesized into a simple, glowing circular Wellness Score.

Real-Time Updates: Provides family members with live status updates of their loved one.

Instant Alerts: Delivers high-priority notifications for critical events (e.g., manual SOS).

The only solution unifying family monitoring, predictive alerts, and simplicity.

	Senior-Focused Design	Remote Family Monitoring	Predictive Alerts	Simple Health Status	Ease of Use
The Tech Giants Apple® SAMSUNG®					
The B2B Heavyweights CarePredict, Aloe Care					
Local Emergency Call Centers Shahal, Natali					
The Proactive Consumer Leader Anchor					

A disciplined, three-year direct-to-consumer expansion strategy.

Strategic Partnerships: The HMO Recommendation Channel

Leveraging Israeli HMOs (Clalit, Maccabi, Meuhedet, Leumit) not as paying institutional clients, but as high-trust, zero-CAC distribution channels directly to families.

A focused beachhead in Israel scaling to a massive US market opportunity.

Israel - The Beachhead

United States - The Expansion

A dual-revenue model combining upfront hardware with high-margin subscriptions.

Hardware + Software

- Watch
- App
- Family portal

\$299 One-time

Hardware + Software + Premium Service

- Watch
- App
- Family portal
- AI alerts
- Advanced analytics
- 24/7 Full Availability Dispatch Center

\$299 + \$19.9/month

Turning users into advocates: \$18M in cumulative revenue, fueled by a high-velocity subscription model with 25% premium adoption.

The long-term vision: The global trusted wellbeing platform for aging populations.
